## CHARM's Newsletter: October Issue

On September 10th-11th, **CFAR**, **CHARM**, and **CTSI** hosted **Engage & Connect: Community Roundtable Series**. This was a 2-day event that fostered meaningful dialogue and collaboration between community members, business organizations, healthcare practitioners, and researchers. Thank you to all those who attended!

**October 9, 2026**

## **Miami-Dade County PrEP Symposium**

**Converge Miami**

**All Day from 8:30 am- 4:30pm**

The **2026 Miami-Dade County PrEP Symposium** will be hosted by **Gilead Sciences**, **CHARM**, and the **REACH Equity** Team, in collaboration with the Florida Department of Health. This event will focus on **PrEP provider training and engagement**, incorporating hands-on workshops dedicated to **PrEP protocol innovation and service delivery models**.

Click [here](#) or **scan the QR code** in the image to apply. Spots are limited!

**Miami-Dade County**

# **PrEP Symposium!**

Gilead Sciences, CHARM, and the REACH Equity Team, in collaboration with the Florida Department of Health, are hosting a 1-day symposium dedicated to PrEP engagement and innovation!

**Monday, October 9th**  
 All Day from 8:30 AM - 4:30 PM  
**Converge Miami** | 1951 NW 7th Ave  
Miami, FL 33136

**Register Now!**

## October 15, 2026 3pm EST Pragmatic Healthcare Ethnography for HIV and Substance Use Disorder Care and Research: Designing for Impact

Please join the **UCLA Rapid, Rigorous, and Relevant (3R) Implementation Science Hub** for an upcoming Methods Workshop entitled **“Pragmatic Healthcare Ethnography for HIV and Substance Use Disorder Care and Research: Designing for Impact”**.

This 90-minute workshop introduces practical skills in ethnographic research, illustrated through rich case vignettes demonstrating how ethnographic methods can illuminate context, barriers and facilitators, unexpected events, and dynamic interactions in implementation settings.

## EIS 101: The Foundations of Implementation Science

*New to implementation science or looking for a refresher?* Join this session for an overview of core IS and EIS concepts, theories, models, and frameworks, and how to apply them in your research. This session will be led by **Dr. Alyssa Lozano, PhD**, and **Dr. Mae Tidd, PhD**, and will build on previous trainings to promote continued learning and knowledge dissemination. This session is open to all and will provide practical insights to support meaningful engagement in implementation research and practice.

## **"The Last Gift" Documentary - Seminar and Screening**

Lois Pope Life Center

Event at 11:30am. Pizza at 1pm.

UM's Department of Cells and Systems Biology and CHARM will be co-hosting a seminar and private screening of the Emmy Award-Winning Documentary, **"The Last Gift: Scientific Discovery at the End of Life"** with invited speaker **David (Davey) M. Smith, MD, MAS**.

This documentary sheds light on **The Last Gift Study** at UC San Diego; a tissue donation study aimed at understanding the impacts of HIV on the body through rapid-autopsy research.

Dr. Smith is the founding director and PI of the Last Gift program, which is an end-of-life translational research model designed to answer open research questions needed to cure HIV.

Click [here](#) to register.

**October 27th & 28th, 2026**

## **Florida HIV CPR Conference**

Tampa, FL

The **Florida HIV CPR** conference seeks to bring together community members, providers, and researchers to network with colleagues and peers, learn about ongoing and current research initiatives throughout the state and create synergy amongst the attendees for potential future collaborative research projects.

Visit [cprconference.org](https://cprconference.org) to learn more.

**October 28, 2026 2pm EST**

## Save the Date for MHD-CE's Upcoming Speaker Series

Our **MHD- CE Core Speaker Series** invites scholars both locally and across the U.S. who are tackling MH and inconsistencies in HIV care using innovative, culturally congruent, and population-informed approaches, assessments, and interventions. This month's speaker series will be presented by **Dr. Simon Howard**.

Further information will be shared at a later date.

**Questions?** Contact **Meadgine Ilmet** ([mfi13@miami.edu](mailto:mfi13@miami.edu)).

**October 29, 2026 2pm EST**

## The Road to R Funding: Insights from Successful Awardees

Don Soffer Clinical Research Building, Ste 710

Join a panel of faculty as they share lessons learned, challenges encountered, and strategies that helped them secure major external grants. Moderated by the **Miami CTSI K12 Program Co-Director Alessia Fornoni, M.D., Ph.D., FASN**, the discussion will offer practical insights into building a competitive research program, strengthening grant applications, and navigating the path to research independence.

Join a panel of faculty who successfully transitioned from career development funding to independent research support as they share lessons learned, challenges encountered, and strategies that helped them secure major external grants. Moderated by the **Miami CTSI K12 Program Co-Director Alessia Fornoni, M.D., Ph.D., FASN**, the discussion will offer practical insights into building a competitive research program, strengthening grant applications, and navigating the path to research independence.

**WHO SHOULD ATTEND**  
Early-career investigators pursuing or currently holding career development awards, and those interested in R funding or equivalent.

**November 11, 2026 2pm EST**

## **How do we evaluate the long-term impact of public health interventions? An introduction to simulation modeling**

Don Soffer Clinical Research Building, Ste 710  
Refreshments will be provided.

In this presentation, **Dr. Lin Zhu** will introduce the fundamentals of simulation modeling and demonstrate how these methods are used to evaluate the health and economic impact of public health interventions. Drawing on examples from her research in hepatitis C elimination among people who inject drugs, she will illustrate how simulation modeling can inform policy decisions and resource allocation.

**December 2, 2026**

## **Implementation Science Half-Day Workshop**

Don Soffer Clinical Research Center, Room 710  
Half-Day from 8:30 am- 12:00pm

Sponsored by the Center for **Latino Health Research Opportunities (CLaRO)** and **CHARM**, this workshop will focus on training attendees on the **Stages of Implementation Completion (SIC)** and **Costs of Implementing New Strategies (COINS)** frameworks, incorporating educational sessions, hands-on activities, and expert consultations with attendees interested in applying these tools to their own work.

Click [here](#) or **scan the QR code** to register.

## **METHODS CORE SEMINAR**

### **How do we evaluate the long-term impact of public health interventions? An introduction to simulation modeling**

Wednesday, Nov 11th 2-3pm ET  
Don Soffer Clinical Research Center, 7th Floor, Ste 710  
Refreshments will be provided

This presentation will introduce the fundamentals of simulation modeling and demonstrate how these methods are used to evaluate the health and economic impact of public health interventions.

**Presenter:**  
**Lin Zhu, MBBS, PhD**  
Assistant Professor  
Department of Public Health Sciences  
University of Miami

## **Implementation Science Half-Day Workshop**

Co-sponsored by the Center for Latino Health Research Opportunities (CLaRO), this workshop will focus on training attendees on the **Stages of Implementation Completion (SIC)** and **Costs of Implementing New Strategies (COINS)** frameworks, incorporating educational sessions, hands-on activities, and expert consultations with attendees interested in applying these tools to their own work.

**WEDNESDAY, DECEMBER 2<sup>ND</sup>, 2026**

**8:30 AM-12:00 PM**

**CTSI TRAINING CENTER**  
Don Soffer Clinical Research Center (Room 710)  
1120 NW 14th St., Miami, FL, 33136

**DR. LISA SALDANA, PHD**  
*Director, Senior Research Scientist, Center for Implementation Science,  
Chestnut Health Systems' Lighthouse Institute*

Dr. Saldana's research focuses on advancing the use of evidence-based practice (EBP) in public-serving systems. She is a clinical psychologist and implementation scientist focused on the development, evaluation, and implementation of prevention-focused EBPs. Dr. Saldana led a multidisciplinary team of researchers to develop the SIC and COINS tools, which have been adopted worldwide to **measure, track, and facilitate implementation processes, milestones, and resource use** for different behavioral and physical healthcare programs.

## Mandated Supporting, Not Reporting: Reimagining Maternal Health Care for Women Who Use Drugs

Katrina Ciraldo, Marina Plesons, Griffin Sansbury, Krystle Culbertson, Harshitha Kakani,  
Julia Finster, Edward Suarez, Hansel E. Tookes, & Kathryn M. Nowotny

### Introduction

- Women with substance use disorders (SUD) are less likely to receive adequate prenatal and postpartum care and often face barriers to care including fear of child custody loss and criminal legal involvement, provider stigma, and inaccessible treatment.
- This study examined how punitive surveillance systems generate fear, disrupt care, and undermine maternal health while identifying alternatives rooted in reproductive justice.

### Methods

- Interviews were conducted with:
  - 21 individuals who experienced pregnancy with active substance use (referred to here as “participants”)
  - 14 providers who deliver medical, behavioral, and/or social services to this population (referred to here as “providers”)
- Transcripts were analyzed using rapid qualitative analysis (RQA).

### Results

- All participants identified as women and had a mean age of 35 years old.
- All participants reported at least one previous pregnancy with active substance use and had a range of drug use, HIV, pregnancy, and criminal legal system experiences.
- Providers included 5 physicians, 3 case managers, 2 social workers, 2 peer support specialists, and 2 other allied health professionals.

### Qualitative Themes

#### Addiction Services

- Expanding access to MOUD during pregnancy
- Addressing stigma as a barrier to care and driver of surveillance-related fears
- Reframing addiction as a chronic, treatable condition

#### Child Welfare Systems

- Intense fear of child removal
- Calls to replace punitive reporting with supportive approaches
- Need for accessible, family-centered systems that prevent separation and promote reunification

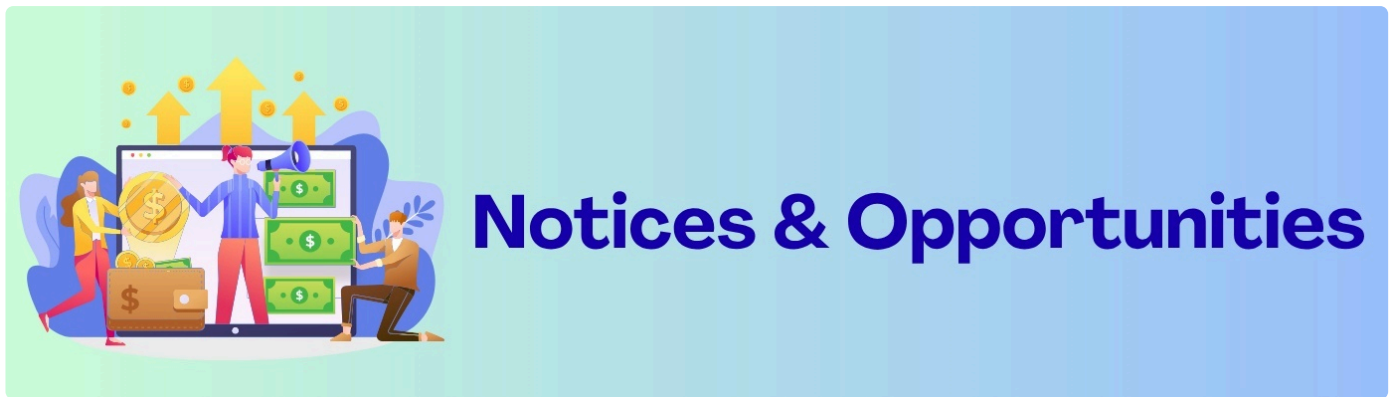

#### Peer Support Models

- Power of lived experience in fostering trust
- Role of peers in providing social support and system navigation
- Importance of formal training and trauma-informed preparation to ensure safe, effective, and sustainable support

### Conclusions

The study demonstrates how punitive state policies exacerbate trauma, disrupt recovery, and intensify health inequities. Findings underscore how reproductive justice frameworks can inform more compassionate and effective responses to maternal substance use.

## Notices & Opportunities

- **The HIV/AIDS and Emerging Infectious Diseases Institute (HEIDI) is accepting applications for our State of Florida Pilot Award Program.**
  - The purpose of HEIDI's State of Florida Pilot Award Program is to encourage innovative, high-risk research to generate preliminary data, build collaborations, and enhance competitiveness for extramural funding on the topics of HIV cure/reservoirs and HIV vaccine research. **Pilot applicants can receive up to \$80k in awarded funds depending on available funding.** Requests for higher amounts will be considered for proposals involving mouse or non-human primate studies if clear justification can be provided.
  - **Applications are due Oct. 19, 2026 by 11:50 PM.**
  - For questions, candidates can reach out to: **Dr. Alexandria Meinecke** ([axm2896@miami.edu](mailto:axm2896@miami.edu)).
  - Click [here](#) to apply.
- **Mentoring the Mentors Training hosted by the Univeresity of California, San Francsico Bay Area (USCSF-Bay Area) will be held on January 19-20, 2027.**
  - The two-day workshop features didactic and interactive sessions to provide attendees with concrete tools for supporting early career investigators through common challenges and pitfalls, developing a structured mentoring plan and building a high-quality mentoring relationship, and covers topics of AI in mentoring, conflict and time management, leadership styles, manuscript & grant writing, individual development plans, life-work balance and integration with mentees, alternative funding strategies, etc.
  - We anticipate that we will award a limited number of travel and lodging scholarships to support airfare/hotel for selected applicants. Potential participants interested in applying for the travel scholarship must have involvement in HIV research.
  - Registration deadline: **November 6, 2026**
  - Note: Please register by **November 2, 2026** if interested in a **scholarship award**.

- Click [here](#) to register.
- **University of Miami CFAR Generating Access & Progress (GAP) Supplemental Funding Opportunity**
  - This funding opportunity is designed to support innovative HIV/AIDS research, related travel, and/or publication costs.
  - Applications are encouraged across the spectrum of HIV/AIDS research including basic, clinical, social/behavioral, and implementation sciences.
  - The GAP award funds are meant to better position projects for extramural funding with a clear path articulated.
  - *For FY2027, priority will be given to applications that are seeking support for projects with preexisting data in:*
    - 1) implementation science research and/or
    - 2) using AI in research
  - Miami CFAR award recipients will receive **up to \$10,000** (direct costs only) for a **project period of 6 months (February 1, 2026 to July 31, 2026)**.
  - Interested candidates are encouraged to **submit their proposals by 5:00 PM ET, November 30, 2026**.
  - Click [here](#) to submit your proposal.
- **COMING SOON! 2026 Lauren F. Collins, Emerging Research Pilot (ERP) Award through the Study of Treatment and Reproductive Outcomes (STAR)**
  - The award supports early-stage investigators and is dedicated to the memory of **Lauren F. Collins**, an early career leader within STAR and a remarkable scientist, clinician, and colleague.
  - *Key Details:*
    - Applications Open: **September 1, 2026**
    - Intent to Apply (non-binding): September 15, 2026
    - Full Application Due: **October 15, 2026**
    - Award Notification: November 15, 2026
    - Project Start: January 1, 2027
    - Project Completion: August 31, 2027
    - Maximum Budget Up to \$50,000 direct costs
  - *Eligibility & Scope:*
    - Projects must be feasible within the project period and align with the STAR priority areas focusing on HIV prevention, treatment, and related health conditions for reproductive-age women.
    - Applicants must have a primary appointment with a STAR study site (University of Miami, Emory University, University of North Carolina Chapel Hill, George Washington University, University of Alabama and Birmingham, University of Mississippi Medical Center, and Johns Hopkins University) and have at least one current STAR investigator serving as a mentor.
    - They must hold a current master's degree, doctoral degree, or MD (or equivalent) and should not be more than 10 years beyond graduation of their terminal degree or fellowship/training. Examples include a doctoral student or postdoctoral fellow, research associate/scientist, instructor/lecturer, assistant professor, or equivalent at their institution.
    - Individuals who currently serve or have previously served as Principal Investigator on an R01 equivalent research grant or comparable independent research award are not eligible.
  - For questions about eligibility or to request STAR protocol documents, please email **Déjà L. Er** ([deja.l.er@emory.edu](mailto:deja.l.er@emory.edu)).

- **COMING SOON! Academy of Science, Engineering, & Medicine of Florida (ASEMFL) Annual Meeting**
  - The **ASEMFL Annual Meeting** will be held in Tampa, FL on **November 6-7, 2026**.
  - Posters are intended for trainees (graduate students and postdocs) in academia or early-stage researchers (within 5 years of their initial independent position) in industry, non-profit, or government positions.
  - Posters are a great opportunity for trainees and new researchers to network and receive input on specific projects in sciences, engineering, and/or medicine.
  - Click [here](#) for more information.
- **COMING SOON! The Northwestern University Feinberg School of Medicine's annual implementation science training short courses.**
  - **April 20-22, 2027 Implementation Science Academy (ISA):**
    - An immersive training experience designed for researchers and implementers seeking to build or strengthen their foundation in implementation science. Participants receive tailored feedback on research proposals and practice initiatives while engaging in interactive learning, project-based consultation, and community building.
  - **January 28-29, 2027 Implementation Science Academy+ (ISA+):**
    - A new advanced training opportunity designed for researchers and implementers with foundational implementation science knowledge who are ready to build, test, and refine solutions to complex real-world implementation challenges. This intensive program emphasizes advanced application of implementation science methods to accelerate impact in practice settings.
  - For both programs, please contact [mss\\_education@northwestern.edu](mailto:mss_education@northwestern.edu) with questions and visit the [Northwestern Methodological Training Institutes webpage](#) for additional information. Both applications are due **January 8th, 2027**.

## Highlighted Core Services

- **Peer Review:** CHARM organizes mock review meetings of grant proposals prior to NIH grant submissions. Each review consists of a one-hour Zoom meeting with up to three reviewers, who provide structured, constructive feedback to strengthen the proposal before submission. CHARM also provides Specific Aims Reviews for investigators who would like to receive feedback on an aims page

under development to evaluate the key aspects of significance and innovation in early stages of the grant proposal process. Please contact **Yanexy Rivera** at [yc9@miami.edu](mailto:yc9@miami.edu) for more information on dates.

- **Grant Ready with CHARM:** A comprehensive pre-submission support program designed to prepare investigators for NIH grant submission. The program includes Specific Aims review, Methods consultation as needed, and a full mock peer review. Editorial services are provided upon completion of the full program to ensure clarity, coherence, and compliance prior to submission. Please contact **Yanexy Rivera** at [yc9@miami.edu](mailto:yc9@miami.edu) for questions or to participate in the program.
- **CLARO Measures Library:** The El Centro/CHARM measures library houses a multitude of measures translated into Spanish and other languages and can be used to identify and access measures for research studies.
- **Consultations:** Consultations can be requested via the **Research Navigation Portal** (see the [CHARM website](#) for more information).
  - The **Methods Core** supports researchers and community members via consultations regarding quantitative and/or qualitative research methods, designing a study, power analysis, data management, and more.
  - **EIS Core** leadership and co-investigators are available for 1-on-1 consultations to advise on Implementation Science Guidance, grant development, match-making with community stakeholders and implementers, finding a partner for specific implementation science work, and more.
  - The **MHD-CE Core** provides consultations on psychosocial assessment, community-engaged research methods, intervention development, IRB and human-subjects considerations, identifying community partners or stakeholders, engaging with the Community Advisory Board, recruitment support, and grant development related to mental health disparities or community engagement.
- **Implementer Consent-to-Contact Database:** One-time survey for South Florida implementers involved in implementing HIV and Mental Health services at various community organizations. Respondents answer questions about their needs, priorities, and interest in participating in implementation research.

To see more information on our services, please visit our website: [charm.miami.edu](http://charm.miami.edu)
